

FREE MACHINE GUARDING IN SPANISH OR ENGLISH

Training for High-Hazard Industry Workers and Employers. From the Susan Harwood Training Grant Program.

Live / Virtual / Multiple Locations / Customizable

2 OR 4 HOUR COURSES

All courses will cover the same material focusing on lockout/tagout and guarding machines to prevent amputations and fatalities.

Standard Topics

- Operating stationary equipment
- Guarding point of operation
- Amputation prevention
- Control circuit systems
- Other general industry machine hazards

Ability to customize

- Employers can customize courses to suit the machines at their locations
- Take courses virtually or live at many locations
- Virtual courses are fully interactive and the use of a device with internet access, webcam and audio is required.

About us

The National Safety Education Center (NSEC) is one of 26 OSHA Training Institute Education Centers in the nation. These education centers are a national network of non-profit organizations authorized by OSHA to deliver occupational safety and health training to public and private sector workers, supervisors and employers. Our partnership, which consists of Northern Illinois University and the Construction Safety Council, allows us to teach courses in OSHA's Region V (Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin).

Why Choose us

- ✓ Our instructional staff is comprised of experienced and knowledgeable safety professionals who possess excellent credentials relevant to a variety of safety areas.
- ✓ We are a trusted company with excellent and fast service
